Welcome,

Scholarships have been a vital part of students attending NDSSS/NDSCS for many years. The NDSCS Foundation Scholarship program was created for the purpose of attracting and retaining students of excellent capacity to continue lifelong learning. This is possible due to the generous support from alumni, community, businesses, friends, staff, and faculty. The NDSCS Foundation provides academic, athletic, performing arts, technology and services, science, business, and general scholarships.

The NDSCS Alumni Foundation is committed to the support of the academics, and proud achievements of our NDSCS students. As a 501(c)3 organization the Foundation’s mission is to “Support and assist those activities that develop and strengthen the North Dakota State College of Science.”

Donors, thank you for your contributions and the selfless act you and your loved ones have shown by contributing to an Endowment or annual scholarship. Students’ need for financial assistance has grown over the years. Your commitment and support do not go unnoticed.

Students, we invite you to learn more about the person, business or families that gave so bigheartedly to help you with your financial load. This booklet gives you a very brief overview of the kind of generosity that has taken place over the years.

The NDSCS Foundation is proud of each one in attendance today! Whether you donated, received a scholarship, represent a business or work for NDSCS, it takes a village to continue lifelong success and for that we THANK YOU!

Kim Nelson – Executive Foundation Director
